

HEALTH – SAFETY - ENVIRONMENT AND QUALITY POLICY

Company	PV Drilling
Reference no.	EOPQ
Version no.	04
Effective date	31-07-2017
No. of page	1/1

At anytime and anywhere, the first responsibility of all staff is to ensure the sustainable development of PV Drilling by fully complying with the requirements of Health, Safety, Environment and Quality Management System.

We shall implement the following principles into daily work activities:

1. Every risk which could lead to injury to personnel, environmental pollution, impact to assets, reputation and integrity of clients and PV Drilling can be prevented or minimized.
2. Complying with requirements of applicable regulations and laws, clients and industry.
3. Enhancing client's expectations by offering the best quality services, trained and competent personnel and commitment to continual improvement.
4. All PV Drilling premises are managed in the sustainable manner to pursue zero incidents.

All personnel working at any PV Drilling work site are accountable for the implementation of this policy.

CEO & President
